Mathitude v3.0 — Demo Guide

Talk-throughs for everything built so far · Prepared by Ari · 2026-05-02

Live URL base: https://website-sage-three-98.vercel.app
Every **admin** link auto-redirects through `/sign-in?redirect_url=<page>` — sign in once, you land back where you tried to go.
Staging DynamoDB (`mathitude-staging-*` , us-west-2): 85 students · 83 families · 81 parents · 3,294 sessions imported from Paula's master CSV (2023–2026).

1 · PUBLIC SITE NO SIGN-IN

#	LINK	ACTION	WHAT TO EXPECT
1	https://website-sage-three-98.vercel.app/	Scroll homepage	Brand purple `#7030A0` titles in Original Surfer, Avenir body, 6-offering Services grid, no pricing visible, "Request a consultation" purple pill CTA
2	https://website-sage-three-98.vercel.app/tutoring	Scroll	Six offerings: Private Tutoring, Small Group Engagement, Parent Advisories, Speaking Engagements, School STEM Workshops, Math Festival Advisories
3	https://website-sage-three-98.vercel.app/tutoring/camps	Scroll	Renamed from "Group Camps" to "Small Group Engagement" per Sara's Apr 24 feedback
4	https://website-sage-three-98.vercel.app/free-resources	Scroll	Resources hub, no broken "Free Downloads — coming soon" placeholders
5	https://website-sage-three-98.vercel.app/balloons	Click "Compare", click "Reveal answer"	Real Mathitude content from Paula's worksheet, flip-to-reveal answer, auto carousel, YouTube embed
6	https://website-sage-three-98.vercel.app/shop	Click any book cover	Opens Paula's Amazon author page (per-book direct links pending)
7	https://website-sage-three-98.vercel.app/events	Scroll	Events list (table empty in staging — placeholder)
8	https://website-sage-three-98.vercel.app/contact	Submit form	POSTs to `/api/consultations` , persists to DynamoDB (email-out via Resend pending)
9	https://website-sage-three-98.vercel.app/about	Scroll	About Paula + Mathitude story

2 · AUTH FLOW REQUIRES CLERK

#	LINK	ACTION	WHAT TO EXPECT
10	https://website-sage-three-98.vercel.app/admin/students *(in incognito)*	Open URL	Auto-redirected to `/sign-in?redirect_url=%2Fadmin%2Fstudents`
11	https://website-sage-three-98.vercel.app/sign-in	Sign in via Clerk	Lands back at `/admin/students` , NOT the generic `/dashboard` fallback
12	https://website-sage-three-98.vercel.app/sign-up	Sign up	New Clerk user; gets default `parent` role until promoted to `admin`

3 · ADMIN CRM SIGNED IN AS ADMIN

3.1 – STUDENTS

#	LINK	ACTION	WHAT TO EXPECT
13	https://website-sage-three-98.vercel.app/admin/students	Land on page	Table of 85 students, ALL CAPS auto-cleaned to Title Case ("TILLY B" → "Tilly B"), 85 active · 0 waitlist · 85 total
14	/admin/students	Click "Student" header	Sorts A→Z (arrow up). Click again → Z→A (arrow down)
15	/admin/students	Click "Grade" header	Sorts Pre-K → K → 1 → 2 → … → 12 (smart numeric rank, not lexical)
16	/admin/students	Click "Status" / "Type" / "Parent" headers	Each column sortable independently with arrow indicator
17	/admin/students	Type "tilly" in search	Filters across name + parent + email + grade simultaneously
18	/admin/students	Grade dropdown → "Grade 7"	Filters to just 7th graders; status filter independent
19	/admin/students	"Add Student" → Tilly Test, K, $75 → Save	Green banner "Added Tilly Test" 3s · new row pinned top with green pulse + "New" tag 3s · settles into sort · auto-creates Family + Parent records
20	/admin/students/stu_paxton_t	Click any student row	Profile page – name, grade, status, parent contact, sessions list, notes panel
21	/admin/students/stu_paxton_t	Type a note → "Save Note"	Persists to DynamoDB sessions table with `type=note`, `createdBy=<Clerk userId>`, appears at top of notes list (Sara's #1 ask: "Pass Notes")
22	/admin/students/stu_paxton_t	Click "Edit" on profile	Inline edit name/grade/status/rate, saves to DynamoDB

3.2 – FAMILIES

#	LINK	ACTION	WHAT TO EXPECT
23	https://website-sage-three-98.vercel.app/admin/families	Land	2-column card grid of 83 families: family name (parent's lastName), parent email, student chips with grade pills, count badge
24	/admin/families	Type "paxton" in search	Filters by family name + parent email + student names
25	/admin/families	Sort dropdown → "# of students" + A→Z toggle	Re-sorts cards (largest household first when Z→A)
26	/admin/families/fam_paxton_t	Click any family card	Family detail with parents + students + payment method placeholders

3.3 – SESSIONS, SCHEDULE, CALENDAR

#	LINK	ACTION	WHAT TO EXPECT
27	https://website-sage-three-98.vercel.app/admin	Land	Weekly schedule (Sara's spec: dashboard = weekly schedule, not generic)
28	/admin/schedule	Land	Schedule grid with day-by-day session blocks
29	/admin/calendar	Click any column header (e.g., "Fall Start")	Sorts the 12-school calendar by that date column. Edits still bind to correct row regardless of sort order
30	/admin/calendar	Click a "Pending" badge	Toggles to "Researched" (or vice versa); status counter updates
31	/admin/calendar	Edit any date input → "Save Calendar"	Recommended Mathitude calendar at the bottom recomputes from majority/median dates across all schools

3.4 – PAYMENTS

#	LINK	ACTION	WHAT TO EXPECT
32	https://website-sage-three-98.vercel.app/admin/payments	Land	Summary cards (Collected / Outstanding / Overdue students), Student Billing table, Recent Payment History table
33	/admin/payments	Click "Status" header on Student Billing	Sorts overdue → failed → pending → paid (problems surface first)
34	/admin/payments	Click "Balance" header	Sorts by outstanding balance, largest first when descending
35	/admin/payments	Click "Charge" on a row	Stripe charge attempt against student's saved card (test keys wired; live keys pending Paula)

3.5 – NEWSLETTER, IMPORT, PAGES, SETTINGS

#	LINK	ACTION	WHAT TO EXPECT
36	https://website-sage-three-98.vercel.app/admin/newsletter	Land	Single sidebar (no double-nest bug), subscriber count + compose form
37	/admin/newsletter	Type subject + message → "Send to All"	Confirms recipient count (actual send pending Resend wiring)
38	/admin/import	Land	Import preview UI (master CSV already imported via CLI script `backend/scripts/import-master.ts`)
39	/admin/pages	Click any page	Inline content editor for marketing pages
40	/admin/settings	Land	Account + admin settings

4 · BACKEND VERIFICATION CLI · NO UI

Run with AWS staging creds (region `us-west-2`).

#	COMMAND	WHAT TO EXPECT
41	`aws dynamodb scan --table-name mathitude-staging-students --select COUNT --region us-west-2`	
42	`aws dynamodb scan --table-name mathitude-staging-families --select COUNT --region us-west-2`	
43	`aws dynamodb scan --table-name mathitude-staging-parents --select COUNT --region us-west-2`	
44	`aws dynamodb scan --table-name mathitude-staging-sessions --select COUNT --region us-west-2`	

#	COMMAND	WHAT TO EXPECT
45	`aws dynamodb query --table-name mathitude-staging-parents --index-name by-stripe-customer --key-condition-expression "stripeCustomerId = :s" --expression-attribute-values '{":s":{"S":"cus_SMOKE"}}'`	

#	COMMAND	WHAT TO EXPECT
46	`aws dynamodb query --table-name mathitude-staging-parents --index-name by-family --key-condition-expression "familyId = :f" --expression-attribute-values '{":f":{"S":"fam_smoke"}}'`	

#	COMMAND	WHAT TO EXPECT
47	`aws dynamodb query --table-name mathitude-staging-sessions --index-name by-tutor-date --key-condition-expression "tutorId = :t" --expression-attribute-values '{":t":{"S":"tut_paula"}}' --select COUNT`	

#	COMMAND	WHAT TO EXPECT

#	PATH	WHAT IT IS

6 · 5-MINUTE LIVE DEMO FLOW

1. Open /admin/students in incognito → forced to `/sign-in` → land back on students. Auth redirect_url forwarding works.
2. Click "Add Student" → Tilly Test, Grade K, $75 → Save. Success banner + 3s green pulse + auto-pin + auto-creates Family and Parent.
3. Click "Grade" header twice. Pre-K → 12 smart sort, click flips direction.
4. Open Tilly B row → add note "Did fractions today". Pass Notes – Sara's #1 ask, persisting to DynamoDB.
5. /admin/families → search "tilly" → open card. Real households, 81 singletons still need merge UI.
6. /admin/calendar → sort by Fall Start, toggle a Pending badge. 12 schools, sortable, status togglable.
7. /admin/payments → click Status header. Overdue surfaces first; Charge button wires when Stripe live key arrives.

7 · PENDING – STRIPE-BLOCKED ITEMS OMITTED

- Family-merge UI – 81 singleton families need consolidation where parents share kids
- Consultation form email-out – needs Resend or SES API key
- Calendly link wiring on `/dashboard/schedule`
- Real upcoming events on `/events`
- Real branding kit – Paula's headshot, social URLs, brand kit final hex confirm
- Per-book Amazon links on `/shop`
- App Runner deploy with prod Clerk + Stripe keys
- Stripe customer-ID match for 84 parents (1/85 covered – only smoke fixture)
- Sara's signoff on `infra/SCHEMA.md`
